Celebrate

Care

- Start with you
 - Eat right
 - Exercise
 - Take time for you
- Vision
- Passion

What do you care about? Where do you want to create change?

Cut Vision into Small Pieces

- Credibility
- Build the right team around you
- Assign tasks to those who share the passion
- The road to success goes one step at a time

What can you do today to make that first step?
Then another and another

Create Solutions

- Next Practices NOT Best practices
- Work with a mastermind of other leaders
- Action

What would you do if you were not afraid to fail?

Celebrate You & Your Team

- Gratitude and joy is the most important thing leaders can share
- Look at how you touched the lives of others
- How your life has been impacted

What does your team value? How can you customize the celebration?

THE MOST TRUSTED SOURCE ON
BECOMING A BETTER LEADER

“The best-kept secret of successful leaders is love; staying in love with leading, with people who do the work, with what their organizations produce, and with those who honor the organizations by using it’s products and services.”
